

## BECOME AN ASSOCIATE PUBLISHER

Are you fascinated by the relationships between art and society? Do you feel you are more than a reader and wish to contribute actively to the production of quality information on the subject? Become an Associate Publisher of Switch (on Paper).

### HOW DOES IT WORK?

We have put in place an original funding system, which enables new partners, individuals, businesses, or communities to become associate publishers by directly contributing to the production of texts.

The production cost of each text is €1300, constituting €500 payment to the author, €100 for reproduction rights (ADAGP), €300 for editing and corrections and €400 for translation.

### WHO CHOOSES THE TEXTS?

Associate publishers are free to produce one or several texts, according to their means and area of interest, and choose the author and subject they intend to support, on the basis of the summary we submit every quarter to the Switch (on Paper) readers society.

At the end of each text, there is a reference highlighting the associate publisher, along with a link to their website, blog, social network, web page or online contribution of their choice.

### WHO COLLECTS THE FUNDS?

Our organisation is an association under the Law 1901, designated “Arts et sociétés” (SIRET : 831 893 805 0018) whose object is to promote links to unusual artistic creations, public or private voluntary-sector initiatives, as well as socio-cultural experiments which relate to the audience in an innovative way.
